18	Management's review for Cheminova A/S

Auriga Industries A/S is the parent of Cheminova A/S with annual revenue of more than DKK 4 billion.

Cheminova is a global chemical company and supplier of plant protection products. Its main area of activity is development, production and marketing of plant protection products for controlling weeds, insects and fungal diseases.

Cheminova enjoys a market-leading position within several of its business areas. Through own process development, registration and development of formulations, Cheminova endeavours to build a wide programme of plant protection products which are marketed in more than 100 countries worldwide. Exports account for 99 per cent of sales.

Cheminova has approx. 800 employees in Denmark and 800 abroad.

Auriga is listed on OMX Nordic Exchange in Copenhagen.

## Cheminova's mission

Cheminova's mission is to control unwanted insects, plants and fungi in order to secure the global supply of food and plant fibre and to improve the living conditions of the world's population in general.

This mission is at the heart of Cheminova's business activities and is the basis from which Cheminova works, its raison d'être.
